W. F. ANGUS,
Director

TWENTIETH ANNUAL REPORT

Year Ended September 30, 1929

To the Shareholders:

Your Directors submit herewith the Twentieth Annual Report of your Company and of its subsidiaries, Canadian Steel Foundries, Limited, and The Pratt & Letchworth Company, Limited, covering combined operations for the year ended September 30th, 1929.

After deducting the usual allowance for depreciation the operations for the year show a net profit of \$3,255,902.02, subject to Income Tax. These earnings are the natural outcome of the successful completion of a considerable volume of orders of substantial size.

The volume of miscellaneous business shows a substantial improvement and the operations of your subsidiary Companies were satisfactory in every respect.

The Consolidated Balance Sheet shows the effect of the recent change in the Capital Structure of your Company. In March last, provision was made for the retirement of the bonded debt through the issue of new ordinary shares of the Company. This retirement of bonds is practically complete and a release from the Deeds of Trust and Mortgage has been obtained, with the exception of Bonds of the Montreal Steel Works, Limited, of which there are only \$282,500.00 outstanding and which mature on December 1st next. Sufficient funds are in the hands of the Trust Company for their redemption. During the period in which the Bonds were outstanding your Company was required to disburse annually a sum of \$842,625.00 in payment of interest and sinking fund, which funds will in future be available for the general purposes of the Company. The retirement of all bonds will substantially improve the position of the preferred and ordinary shares of your Company.

The liquid position of your Company is excellent, the surplus of current assets over current liabilities being \$6,163,118.32 (a ratio of $3\frac{1}{2}$ to 1), as compared with \$3,775,896.17 a year ago.

A sufficient volume of business is carried forward to keep your plants active during the balance of the present calendar year, by which time it is hoped that new business will be obtained to ensure a satisfactory continuance of operations.

The various properties of your Company have been maintained in good condition and the extensions and improvements made during the year will be of substantial benefit.

Your Directors feel that the policy of the Management in maintaining an efficient organization during the past years has in a great measure been responsible for the splendid results which are now before you. A large volume of work was promptly and capably taken care of and the various plants have been operated economically. It is indeed a pleasure to testify to the efficiency of the organization.

For the Directors,

W. W. BUTLER,
President.

November 7th, 1929.
